

As **burmatex**® both design and manufacture our products on a single site in West Yorkshire we are able to maintain a unique environmental culture throughout the entire company. In this way each stage of our manufacturing process considers and contributes toward the environmental rating of all our products.

### DESIGN

During product design both the form and function of our carpet products is carefully considered. This way we produce our striking ranges in a hardwearing product finish, underpinned by our 10 year guarantee.

### MANUFACTURING

As well as reducing transportation by manufacturing on a single site, we use 100% renewable electricity. Our fibre bonded products incorporate 15% locally sourced, recycled fibres and our post production waste (from both yarn and carpet off-cuts) is either internally recycled or collected for external reprocessing and recycling.

### BACKING

At **burmatex**® we use our own unique Accummen™ backing, containing over 75% recycled, locally sourced content.

### PACKAGING

Our recycled and FSC certified packaging is fully recyclable.

## GREEN STORY

- We respect the environment by manufacturing **100% waste free**
- We create carpet tiles and sheet with **over 60% recycled and reclaimed content**
- Raw material to final packaged product on **one West Yorkshire site**
- All our ranges hold **BREEAM A+** and **A ratings**
- All our ranges hold **VOC A+** and **A ratings**
- We use our own **unique Accummen™ backing**

We recognise that, as a manufacturer, our activities impact on the environment. Because of this we take every opportunity to target and minimise all potential issues.

Throughout the design and manufacture of our quality carpet tiles and sheet:

### WE PREVENT

- **Unnecessary transport:** manufacturing our products on one site
- **Pollutive impact:** shown through strict BREEAM and VOC eco-standards

### WE REUSE

- **Production waste** that cannot be prevented
- **Waste Material** from other industries separated and reused

### WE REDUCE

- **Waste:** during product manufacture and at point of installation
- **Pollution:** by using 100% renewable electricity

### WE RECOVER

- **Our Unique Accummen™ backing** contains over 75% locally sourced and reclaimed content
- **Energy from our production waste** ensuring none goes to landfill

### WE RECYCLE

- **Yarn waste** is collected and recycled
- **Production waste** is sent for reprocessing and use in other industries

### WE DISPOSE

- **Responsibly** through funded recovery and recycling programs

- ✓ 100% renewable energy
- ✓ 100% recycled packaging
- ✓ 100% post production yarn recycled
- ✓ 75% recycled backing
- ✓ 60% recycled and reclaimed product content
- ✓ 15% fibre sourced locally
- ✓ 15% recycled fibre in fibre bonded
- ✓ 0% landfill waste

Our products are made with renewable electricity

Environmental Profiles Scheme  
Certificate Number ENP353  
All our products rated **A** and **A+**

Statement on level of emission of volatile substances in indoor air posing a toxic threat during inhaling – on a scale from **A+** (very low-emission) to C (high-emission)

### 100% Recycled Packaging

We use recycled and FSC certified cardboard packaging

Latex Edge Trimming Recycled

15% Recycled Fibre

Minimum 60% recycled and reclaimed product content for tiles  
Over 75% recycled Accummen™ backing
