About Corkart

PRODUCTS WITH EXCLUSIVE
DESIGN & PREMIUM QUALITY,
PRODUCED IN PORTUGAL, EUROPE.

EXCLUSIVE PRODUCTS & QUALITY CONTROL

Handmade with care and craft by our talented workers,
focused on details and relying on high quality control processes.
The results are unique and premium pieces.

Sustainable Company

In addition to the use of cork, **a natural material that is removed from the cork oak** without damaging the tree and that is renewed, allowing the maintenance of the cork oak forest and all the surrounding biodiversity

CORKART TAKE SEVERAL SUSTAINABLE ACTIONS:

Nothing is worthless. **Cork powder is transformed into energy** and most part of our machinery is heated using cork powder.

Cork waste is reused, in experiments, **to create innovative products** and returned to the production process.

We have one of the **biggest solar power plant installed for self consumption in Portugal**, with more than 4.000 panels with an installed power over 1.2 Megawatt.

In the SPC production, **all waste is crushed into small pieces to be re-introduced** in the production process.

The Floor Coverings

Discover our wide range of premium quality products.

From the more traditional to the most contemporary look, for a wide variety of applications.

FLOOR COVERINGS

Flooring with modern design & extraordinary features.

We have developed the Vinyl Concept flooring to reach high performance, in even the most, particular environments. Their resistance and comfort, such as the possibility to choose different designs and sizes will delight you.

Explore our Vinyl Concept & it's features!

SURFACE FINISHING

FLOOR COVERINGS

Cork is a natural material with great insulating & acoustic properties.

This natural product creates a warm, comfortable and resilient surface. Cork is remarkably resistant to wear, as it is less affected by impact and friction than other hard surfaces, due to its cellular composition.

Explore our Cork Concept & its features!

CORK UNDERLAYMENT SHEETS AND ROLLS

Cork Underlayment is the underlayment of choice for sound control. Forever resilient unlike the majority of synthetic underlayment membranes, **it can be installed under any type floor covering.**

A natural product which does not rot, it reduces and absorbs the moisture which might be created by condensation. **Provides more comfort, protection and longevity to floor, guaranteeing even greater energy efficiency and acoustic insulation.**

Cork Underlayment can be used in **commercial or domestic applications** and helps significantly to the acoustic performance and comfort of floors.

Cork Rolls standard (10m²) 10 x 1M
Available in 2, 3, 4, 5, and 6mm
Packed with Plastic film

Cork Sheets - 915 x 610mm
Available in 6, 8, 10, 12 and 15mm
Packed per box

FOR OTHER THICKNESSES, DIMENSIONS OR OTHER TECHNICAL SPECIFICATIONS FEEL FREE TO CONTACT US.

FOR ALL TECHNICAL INFORMATION, PLEASE VISIT: CORKART.PT

SUITABLE FOR:

TECHNICAL PRODUCTS

All premium quality floors need to be taken care properly.

Explore our solutions for daily maintenance & for the repair of damaged floors.

SUITABLE FOR:

MAINTENANCE PRODUCT

A specially formulated biodegradable coating that helps revitalize and protect your **Cork and Design floor** against wear and moisture.

The use of DL-9667 is mandatory to maintain the wear warranty on **Corkart floors**. Biodegradable, contains no volatile organic compounds (VOCs). Suitable for Cork and Design floors.

REPAIR KIT

Our **Repair Kit** is a useful help when your floor gets damaged by any reason. It is very easy to apply and you can quickly save your floor from holes, scratches and other similar problems.

Minutes after applying the **Repair Kit** your floor will look new. It is recommended to apply the Maintenance Product after the **Repair Kit** application for a homogeneous gloss level. Suitable for Cork and Design floors.
